Risk Management

VERLINGUE

Helping businesses stay in control

Every organisation faces uncertainty, from operational and financial challenges to reputational risk. Our Risk Management specialists help businesses identify, reduce and manage risk, strengthening resilience and improving workplace safety. Combining independent advice with IOSH-approved training expertise, we deliver practical solutions that help organisations stay protected and prepared for whatever comes next.

Why choose us

Verlingue is a leading Chartered Insurance Broker and Employee Benefits consultant, supporting businesses across the UK and internationally.

As a family-owned business, we believe strong relationships lead to better outcomes. By taking the time to understand your business, we provide advice and solutions tailored to your needs. We have held the Investor in Customers Gold Standard since 2018, reflecting our commitment to delivering an exceptional client experience.

We help businesses manage risk, protect their people and plan with confidence.

WHAT OUR CLIENTS SAY

Verlingue' s pragmatic approach to risk in the workplace is a significant value add. It has driven improvement, increased efficiency and reduced costs across the health and safety programme.

CYBER ESSENTIALS CERTIFIED PLUS

Enterprise Risk Management

Enterprise Risk Management provides senior leaders an overview of risk in their business, helping them to prioritise and take action on the areas that need them most.

We partner with organisations to design and implement frameworks, align priorities, and build a strong, shared risk culture.

Our services

- Risk registers and governance frameworks
- Business continuity and resilience planning
- Cyber, ESG and operational risk support
- Incident reporting and control frameworks
- Horizon scanning and risk appetite

Property Loss Control

Managing property risk starts with recognising the vital role property plays across every sector and putting the right controls in place early.

With strong technical expertise and a collaborative, client-led approach, we help organisations strengthen protection and support their efforts to enhance resilience and governance.

Our services

- Site surveys to identify risk management strategies
- Risk exposure review
- Protection and prevention strategies
- Security and resilience planning
- Support with insurer requirements

Business Continuity

When disruption happens, preparation makes the difference. A clear, well-tested plan allows businesses to respond quickly and stay in control.

We help clients understand their critical operations and put practical measures in place to keep them running.

Our services

- Business continuity planning
- Business impact analysis
- Independent reviews and audits
- Scenario testing
- Ongoing improvement

Cyber Risk

Cyber risk is a reality for every business, regardless of sector. Understanding your exposure and knowing what action to take is key.

We provide clear, practical advice to help strengthen protection, respond effectively, and make informed insurance decisions.

Our services

- Cyber risk assessments
- Policy and insurance advice
- Employee awareness and training
- Cyber risk quantification
- Incident response planning
- Ongoing support

Motor Fleet Risk

For organisations that rely on vehicles, fleet performance can directly affect cost, safety and service.

We help clients understand the causes of incidents and improve outcomes through a consistent, data-led approach.

Our services

- Fleet risk audits
- Telematics and technology solutions
- Driver training programmes
- Claims defensibility support
- Performance benchmarking

Health and Safety

A strong health and safety framework is fundamental to every organisation. Prioritising a structured, proactive approach helps maintain consistent standards.

We work with clients to identify gaps, strengthen controls and embed practical processes that support effective, well-managed operations.

We deliver IOSH-accredited training, including IOSH Managing Safely.

iosh Approved training provider 5348

Our services

- IOSH-accredited training for your employees
- Fire risk assessments
- Compliance and gap analysis
- Site inspections and risk identification
- Post-incident review and defensibility
- Policies and process development

The Verlingue approach

Our approach focuses on building long-term relationships, taking the time to understand your business and putting together the right solutions for you.

Define client objectives/strategies
What are your business priorities?

Identify risks/events
What keeps you awake at night?

Analyse the cause & effect
Why does the risk exist?

Determine impact/likelihood
The chance of the risk happening?

Method for risk management
Avoid / accept / reduce / transfer?

Design mitigation strategies
Controls / insurance?
