Enforcement Agents and
Private Investigators Insurance Scheme

Professional protection for investigation and collection

Having the right insurance is a fundamental requirement of any business, but for Enforcement Agents and Private Investigators there are inherent risks involved with day to day business that require elements of specialist cover. Therefore, working with an insurance partner who understands your business is critical.

Verlingue's Enforcement Agent and Private Investigator Team

Our dedicated team truly understand the complexities of your business and have developed a comprehensive insurance scheme with Aviva which satisfies these particular needs.

You can select the combination and levels of cover to suit you, ensuring full protection at a highly competitive rate.

Claims Management

Due to the sensitive nature of your business, claims can often arise through simple misunderstandings, which can be difficult to substantiate and extremely time consuming for you.

We aim to make the process as pain-free as possible. Once you have assisted us in establishing a clear audit trail we will manage claims through to settlement, saving you time and money.

Supporting the claims process we also offer you regular claims analysis, if required, and can advise on how to avoid repeat claims in the future.
