Insurance Experts

The right product at the right price

By combining our knowledge of franchise business with our insurance expertise we can create exactly the right insurance package for your business.

With unrivalled access to the specialist franchise world, we have produced a series of unique products to help both you as franchisors and your franchisee partners.

Dedicated team

We have a dedicated team who not only understand your business but are insurance experts able to source the right products at competitive prices, aiming to help your business save time and money.

Once you have explained your needs and issues, our job is to find the right solution. We are not in the business of telling you how to run your business. We find solutions to fit you, not to suit us.

Through our access to the specialist franchise insurers, we have a wide range of options which can be tailored to fit your operation.

Your Franchise
Insurance Experts

Market leader

Years of experience, and dealing with some of the biggest names in the business, puts us in a unique position to meet your needs.

With the right insurance in place, you are free to concentrate on the business you know best with the confidence that you have the right backing and a dedicated team supporting you all the way.

Protection for all parties

Our special schemes for franchisees ensure their businesses are properly protected and, in turn, protect your brand name and reputation. We know you have better things to do, so we offer a full service. When you sign up a new franchisee, our products are available to them - we will take care of all the ensuing administration.

We can also offer a vetting service for franchisees who make their own insurance arrangements.

Risk management

Risk management is a great way to lower your premiums and reduce the chances of a claim that could cost your business time and money. We offer a risk management service and work with you and your franchisees in this area, including advice on health and safety.

Efficient claims process

If things do go wrong and you need to make a claim, we are here for you too. A member of your dedicated team will guide you through the whole claims process, ensuring that your claim is dealt with quickly and fairly.

Claims are followed up by your dedicated team. They will help identify any trends and notify you of any instances where franchisees could improve their risk management to reduce the risk of future claims. An end to end service - designed to suit you.
