

Our Risk Management capabilities

THE PROCESS

Define client objectives / strategies

Identify risks / events

What keeps you awake at night?

Analyse the cause & effect

Why does the risk exist?

Determine impact / likelihood

The chance of the risk happening?

Method for risk management

Avoid / accept / reduce / transfer

Design mitigation strategies

Controls / insurance

RISK AND INSURANCE

Mitigated

- ✓ Risk assessment
- ✓ Fire safety
- ✓ Training
- ✓ Accident investigation
- ✓ PPE

Retained

- ✓ Accepted risk
- ✓ Self fund

Transferred

- ✓ Insurance

Verlingue's pragmatic approach to risk in the workplace is a significant value add. It has driven improvement, increased efficiency and reduced costs across the health and safety programme.
