The right product at the right price

The Transport and Logistics sector continues to grow even in the current tough economic conditions.

Customers are now more demanding and expect greater flexibility and customised solutions from their service providers.

Logistics providers need to further expand their competence in all areas, which allows them the opportunity to be involved in the end-to-end control of customer supply chains.

Specialist service

We can offer you a dedicated team that truly understands your market. We have spent more than 50 years working in this sector and have acquired the specialist knowledge necessary to help reduce the overall costs of running your business.

Whether it is motor fleet, carrier's transit or warehouseman's liability, we can recommend a variety of products to suit your specific needs.

Understanding the market and your needs

With the growing need to provide contract services beyond and outside of standard terms, these expanded services result in emerging risks. We will work hand in hand with you to understand the unique requirement of your business and your customers, to provide tailor made and innovative solutions that will not only provide you with the comfort of being protected, it will also leave you one step ahead of your competitors.

Claims priorities

We know that things do go wrong and that you will face claims or legal and contractual disputes at some point.

Our dedicated claims team liaise with lawyers, surveyors and other third parties as necessary to ensure a speedy resolution and assist in having yours and your customer's operations running at full capacity again quickly and efficiently.

Supporting the claims process we offer you regular claims analysis, which will help you identify any problem areas and in turn help your business make the improvements required to ultimately save money on insurance premiums in the future.
